

RSI Reportcard

Finally, the recurring nightmare is over – you know, the one where you're late for a class you've never been to and unprepared for the final exam. Instead, now you dream that you're relaxing by the pool with complete confidence that your study and preparation has made your restaurant first in its class.

Restaurant-grade Business Intelligence

The power of preparation

This is no dream. The reality is that with the power of the RSI Reportcard at your fingertips, you can relax as your point of sale financial data is sliced and diced and displayed on a dashboard you can analyze anytime, anywhere. With a quick scan, you can pinpoint problems and be prepared to address them proactively. Now, there are no surprises at the end of the reporting period.

Metrics are your master

Built on our proprietary Smartpolling™ technology, the RSI Reportcard captures raw data and turns it into actionable business intelligence. Ours is a restaurant-grade enterprise solution that spares its clients the enterprise cost and complexity found in most comparable reporting solutions today. Whether you run a multi-unit or single-unit operation, the scalable RSI Reportcard will capture the decision-support data and metrics you must measure and monitor so your business can make the grade.

Data polling is just the start

Point of sale data collection is the foundation of the RSI Reportcard, however, this is only one piece of our comprehensive offering. With our complete financial management solution, Restaurant Solutions, Inc. provides over 50 comprehensive finance, payroll, human resources and revenue reports, snapshots and dashboards that provide transaction-level details, side-by-side location comparisons, charts, graphs, trends, and more.

Now there's a report card you won't want to hide.

With the RSI Reportcard, there are no more excuses. Everyone in my organization now understands the goals, how to work toward these goals by reducing costs and eliminating waste, and when to celebrate our successes. The RSI Reportcard and the RSI system help me focus my time on building a profitable restaurant and give me more time to enjoy doing it. - Steve Habecker, Norm's Seattle

No IT manager required

While the RSI Reportcard may seem technically advanced, implementation is really quite effortless for our clients. A true software as a service, our solution does not require the purchase of software or hardware, integration, migration or maintenance. Log into your own, customized website from any Internet connection and all the business intelligence information you need is available when you need it. The RSI staff manages the system behind the scenes so you can stay focused on your restaurant and your operational efficiency.

The RSI Reportcard, powered by our proprietary Smartpolling technology, will become your gauge to future financial growth and success. Find out more about RSI and our complete financial management solutions by calling 303.458.1204 or going to www.restacct.com or logging onto www.rsireportcard.com.
